## Work Experience

### COGNIZANT (GOOGLE CLOUD)

08/2024 - 04/2025

My most recen project was as a Generative AI Subject Matter Expert (SME) at Cognizant, within the Google Cloud project. My role involved developing applications using Flutter and integrating Google Cloud's AI solutions to deliver innovative experiences for our clients.

### MICROSOFT/ LTIM

010/2023 - 08/2024

I worked as part of Microsoft Azure App Services team, in the diagnosis and resolution of platform and software issues, mainly related with Networking and Certificates.

### LA PLATA

03/2020 - 06-2023

I worked on the development of multi platform applications mainly with flutter-dart.

## Academic record

### APPLICATIONS DESIGN AND PROGRAMMING

Asunción Polytechnic University

Professional course with focus on mobile front-end and multi platform development.

### COMPUTER ENGINEERING

Oviedo university/UNED

3rd year computer engineering student, Neuronal Network and Machine learning specialization.
